

## PRESS RELEASE

### **Artesyn Embedded Technologies Honored by SPDEI, the French Association of Distributors of Electronic Components, in the Power Category**

**Tempe, Ariz.** [5 December, 2014] — Artesyn Embedded Technologies today announced that it has been recognized by SPDEI, the French association of distributors of electronic components, as a top supplier in 2014. During the 19th Annual SPDEI Awards ceremony in Paris, France, held on December 2, Artesyn was named a winner in the “Power” category. The ceremony took place at the Automobile Club de France, Place de la Concorde.

This year’s SPDEI Awards recognize the electronic component manufacturers of 2014 in nine product categories. Members of Syndicat Professionnel de la Distribution en Electronique Industrielle (SPDEI) evaluated suppliers based on five criteria: partnership with the distributor, innovation, price, quality, and durability of products; product range; profitability for the retailer; resources to support the distributor; and protection and traceability of designs.

Information about SPDEI is available at [www.spdei.fr](http://www.spdei.fr).

#### **About Artesyn Embedded Technologies**

Artesyn Embedded Technologies, formerly Emerson Network Power’s Embedded Computing & Power business, is a global leader in the design and manufacture of highly reliable power conversion and embedded computing solutions for a wide range of industries including communications, computing, medical, military, aerospace and industrial. For more than 40 years, customers have trusted Artesyn to help them accelerate time-to-market and reduce risk with cost-effective advanced network computing and power conversion solutions. Artesyn has over 20,000 employees worldwide across nine engineering centers of excellence, four world-class manufacturing facilities, and global sales and support offices.
