Advice of change in specification of LGA03C

Dear User,

This letter supersedes any prior notifications.

Product manufactured subsequent to the date of the issuance will comply to the following specification change.

- Product built and shipped prior to the date of this letter's issuance will operate from the input voltage range specified as 3V to 14V
- Product built and shipped after the data of this letter's issuance will operate from the input voltage range specified as 3.4V to 14V

This specification change has been the result of a change in the product's controller's operational voltage range.

We do sincerely appreciate your business and will make every effort to work with you during your transition to a solution as needed.

If you have any questions or need specific application assistance, please contact us (you may visit <https://www.artesyn.com/> or call 1-888-412-7832) or your local sales representative to assist you.

Thank you for your continued patronage.

Best regards,

Andy Brown | Director Technical Marketing DCDC | Embedded Power
